Tuff WalkTM
CORRUGATED SHEET

Company Profile

SAURASHTRA POLYMERS. is a manufacturer of plastic corrugated sheets, corrugated boxes, boards, partition using polypropylene (PP) copolymer resin and supplying quality and competitive products to electronic firms, automotive firms and signage industries. CLPG also provides other customized packaging solution.

We have mainly two products, "H-Line Corrugated Sheet" and "S-Line Corrugated Sheet" which can applicable for Bottles & Beverage Industries, Building & Construction Industries, Trees & Plants Industries, Graphic Industries, Sings Industries, Industrial Packaging, Agriculture Packaging, Tote & Stationery Industries, Steel & Metal Industries, Textile, Plastic & Palette, Natural Stone & Marble Food, Aquaculture, Separators, Medical, Printing Technology, Education & Stationery, Electronic, Advertisement & Introduction, Agriculture & Gardening etc.

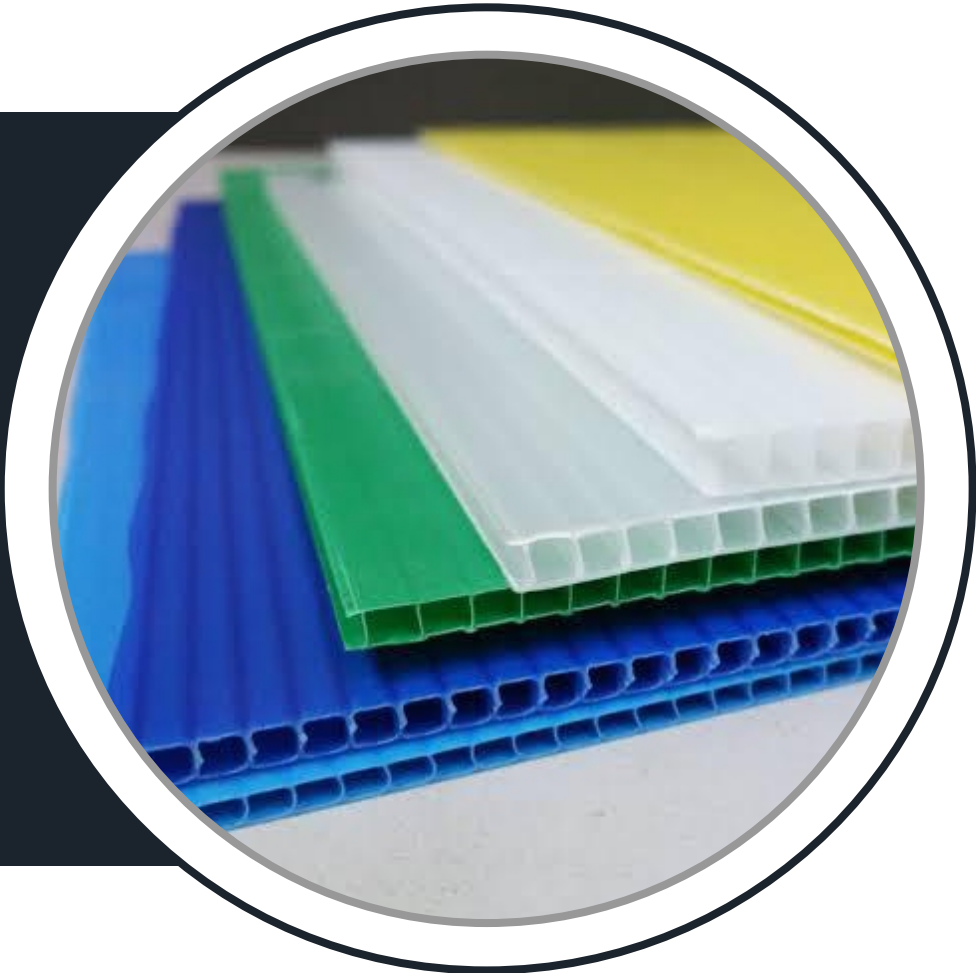

PP Corrugated Sheet creates ideas for protective packaging with aesthetic value.... a latest name is PP Flute Board & PP Hollow Sheet to shape your imaginations into wealth. It will revolutionize the global horizons if Signage, Packaging, POP, Stationery and Gift segments. PP Corrugated Sheet is available in Eye catching attractive colors & shades. It is printable both on Matt & Glossy finish. It is reusable due to better hinge strength & stiffness hence more economical.

Global Network

"Global Network" refers not only to the physical locations operated by SAURASHTRA POLYMERS . worldwide in most industrialized and emerging economies (corrugating plants, converting plants, and research and design centers), but includes the more than half a century's worth of accumulated experience and know-how gained thro ugh helping companies reduce total packaging costs, and rationalize their material handling and logistics systems. The strength and breadth of SAURASHTRA POLYMERS .'s Glob al Network means rapid, effective response to the demands of an increasingly sophisticated economy; an economy that depends - ever y single day-on the safe, efficient, and environmentally conscientious transport of hundreds of millions of products, to every corner of the globe. Our customers have learned that Saurashtra polymers. Truly is "The Only One".

We Believe In

- ALWAYS QUALITY FIRST
- DEADICATED FOR DEADLINE
- CONSTANT R&D DEPARTMENT
- BEST CUSTOMER SUPPORT

About Us

Over 40 years experience working with plastics

Our highly qualified team has the knowledge and experience to ensure every order is completed to the highest standards.

Dedicated customer support team

We strongly believe in excellent customer service and our support team is on hand from 10 am to 8.00 pm Monday – Saturday to deal with any enquiries you may have regarding your order. We will always try to answer customer emails within 24hrs.

Satisfied customers

Over the years we have fulfilled orders for a wide range of customers from large corporations to private individuals.

Fast and well-packaged delivery service

We have an excellent relationship with our Transporter service and all orders are meticulously packed using a variety of materials to ensure the sheets arrive in excellent condition. Where necessary, larger sheets may be shipped on a pallet(s) to guarantee against breakage. We aim to dispatch your order within 3 working days however during busy periods this may extend to 5 - 7 working days.

Highest grades of material guaranteed

We pride ourselves on the quality of our materials and value this above providing a lower-cost product.

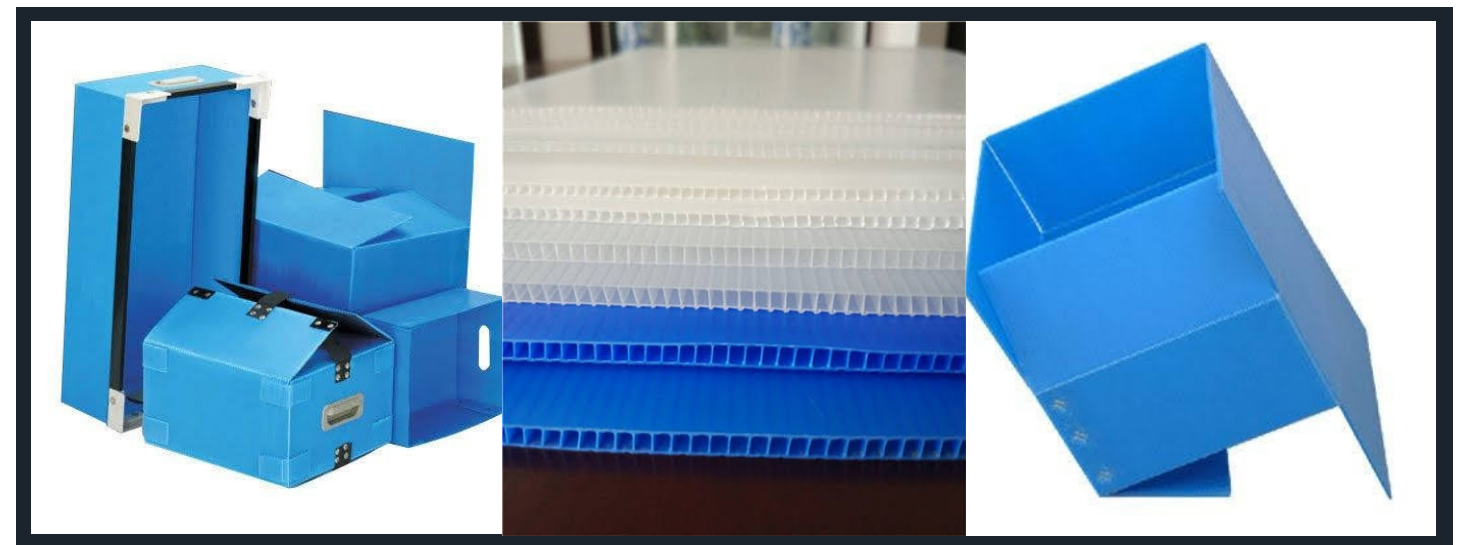

About pp corrugated plastic sheet:

Corrugated sheet not only called PP sheet, but also named H-line pp corrugated, which is made of polypropylene and so on. PP sheet is non-toxic, Eco-friendly, water-proof, shock-proof, aging resistance, corrosion resistance, colorful and so on. It can be designed as all kinds of turnover box, such as conductive box, heavy duty box, fruit box and so on.

PP corrugated sheet (also call pp hollow sheet, pp twin-wall sheet) is made from Polypropylene (PP) block copolymer; it is an extruded hollow profile sheet consisting of two flat walls connected by vertical ribs. PP Corrugated Sheet is absolutely harmless and smells, and moisture resistance & anticorrosion. It's special and great properties such as strong, lightweight, various colors, etc. Could prove that it is suitable in the uses of packaging, printing, advertising, construction and agriculture. Plus, its price is charmer, and that will save a lot of cost for you.

PP looks like PE, but PP is more transparent, lighter. PP own low water absorption, low gas permeability. PP has good mechanical properties, the tensile strength and yielding strength are better than PE, PS and ABS. PP resists stress cracking and easy to weld, but low notched impact strength, the finished parts shall avoid sharp corners and notches. The temperature ranges between +5°C and 100°C. Product name: PP hollow sheet, PP corrugated sheet, PP coroplast board

PP (Polypropylene) Corrugated Sheets

It is corrugated sheet which is made from polypropylene. It is stronger, more useful and more hygienic than the other materials in sector. It shows extra strength against moisture and chemical actions. Corrugated plastic sheets reduce cost, It is corrugated sheet which is made from polypropylene.

Featurus

Light Weight & Strong

Vermin Proof

High Insulation

Easy Fabrication

Water & Chemical Proof

Puncture Resistant

Custom Made

Load Bearing Strength

Impact & Tearing Resistant

Finest Surface

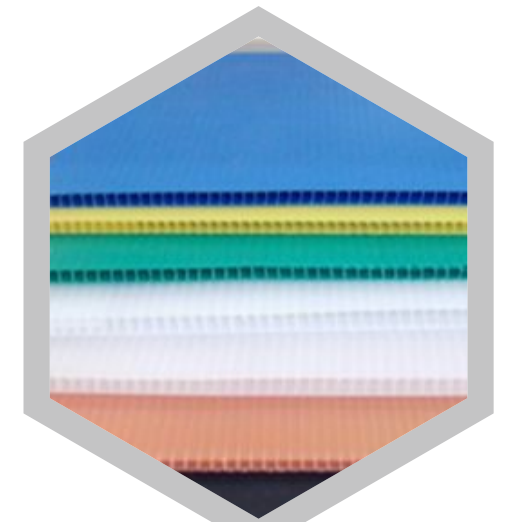

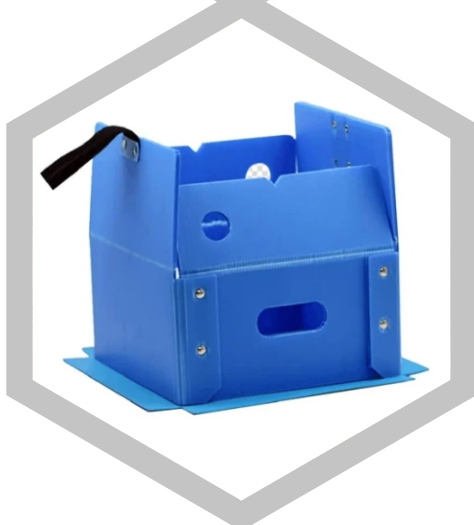

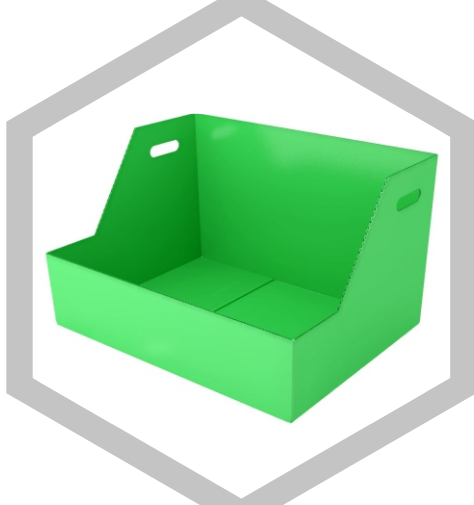

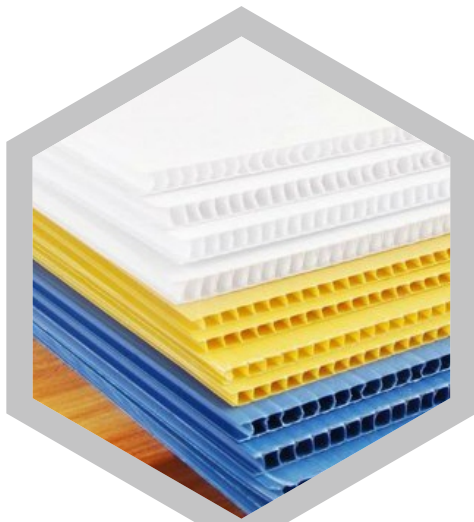

Scratch Resistant

Reusable & Recyclable

Available Sheet Size

Thickness	Available in 2mm to 8mm
Weight	250GSM to 2500GSM
Size	Up to 1500mm Wide and Cut Lengths
Colors	White, Blue, Red, Yellow , Green and may eye-catching colors
Printing	Both side corona treaded surface to provide affinity with printing inks
Food Contacts	Suitable for contact with food uses
Weather	UV stabilized grade with better Outdoor life concerns and Non-UV Sheets for normal interior applications

Applications

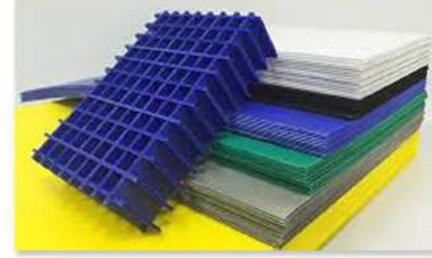

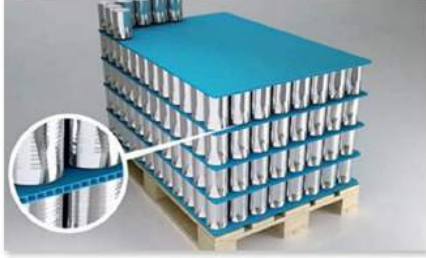

Floor Protection

Building protection board which will protect floors from damage from any type of building or construction work including falling bricks, mortar, debris, paint, plaster, wheel barrows, ladders, some chemicals, and much more.

Separator

Corrugated Plastic Pallet Separator are used as divider sheets in the transportation of glass containers and cans for the food and beverage industry.

PP Corrugated Box

Polypropylene Fluted Board packaging is protecting and transporting a huge and diverse range of products from car components to cabbages, and from glass to greenhouses. They are cost effective and designed to keep your product safe during delivery and storage.

Sunpack Printing

PP Fluted Board is a high quality, tough and durable polypropylene co – polymer in Corona Treated or with UV stabilizes, which can withstand sunlight and general weather conditions. It is perfect for screen - printing, digital printing and for use with vinyl.
